World Nature Conservation Day

Circular

Our college SSMIET is actively participating in the “World Nature Conservation Day”, a nationwide initiative in collaboration with the Green Terre Foundation and the All India Council Technical Education (AICTE). As part of this endeavor, a special Tree Adaptation and Sapling Plantation Program is going to be organized on 28.07.2022 all the students are invited to join in this meaningful and impactful initiative.

The Student participations are encouraged to create a greener and more sustainable future for ourselves and the generations to come. Student's participation in this program is not only a contribution to the environment but also a powerful statement about our commitment to addressing climate change.

The Student's active participation and support are invited in making **World Nature Conservation Day** a resounding SUCCESS.

Unnat Bharat Abhiyan – SSMIET

12.08.2022

Report on Tree Plantation in Adapted Villages under UBA

The Tree Plantation Program organized by Unnat Bharat Abhiyan (UBA) of SSM Institute of Engineering and Technology (SSMIET) Dindigul aimed to create awareness on World nature conservation day. On July 28, 2022, the institute successfully planned 100 saplings in the adapted village of UBA - **Kaaladi patti** as the part of their commitment to social responsibility and environmental conservation.

The primary objective of the tree planting program was to sensitize the local communities to the impacts world nature conservation day and emphasizes the role of tree in mitigating these effects. By actively involving the community in planting saplings, the initiatives aimed to foster a sense of ownership and responsibility towards in the environment.

The program was executed in the adapted villages under the Unnat Bharat Abhiyan, strategically chosen to maximize the impact of the tree plantation initiative in the locality of the Institute thus serving the local community. The selected village was identified based on their environmental need and potential for community engagement.

The Tree Plantation Program commenced with a brief inauguration ceremony at Kaaladi patti, where Faculty coordinator, UBA coordinator and 50 student volunteers of UBA-SSMIET along with the local community engaged in the tree planting process. A diverse range of 100 saplings, including native species, was distributed among the villagers. Each participant received a sapling proper care and growth. The plantation was done in Kaaladi patti by 10.45 a.m. Refreshments were provided to the Faculty and student volunteers. A comprehensive maintains plan was discussed and shared with villagers, ensuring long term health and growth of planted saplings. This plan included regular watering schedules, protection from grazing animals. The events emphasized the importance of sustainable practices, the role of trees in carbon sequestration, and border implications of climate change. The active involvements of villagers fostered a sense of ownership and responsibility for planted saplings, contributing to the long term success of initiative. The program strengthened the bond between SSMIET and adapted village under UBA paving the way for future collaborative initiatives aimed at sustainable development.

By planting 100 saplings and actively involving the local community, the initiative not only contributed to environmental conservation but also promoted awareness and community empowerment. The institute remains committed to its role in fostering sustainable practices and addressing the challenges posed by climate change in adapted village.
