

## Principles of Sensors and Transducers

This book, "PRINCIPLES OF SENSORS AND TRANSDUCERS" has been written in a simple and lucid language for Mechanical, Aeronautical, ECE, EEE, EIE and ICE students of all engineering colleges. This book helps to enable the students in understanding various sensors and transducers and its impact in engineering. These are electronic circuit or system to perform any useful task or function. It needs to be able to communicate with the real world.

Dr. N. Balamurugan, Assistant Professor in EEE, SSM Institute of Engineering and Technology, Dindigul-2, Tamilnadu, India.  
Dr. S. Selvaperumal, Professor and Head, EEE, Syed Ammal Engineering College, Ramanaipuram, Tamilnadu, India.  
Mr. P. Ambigaiathan, Assistant Professor in EEE, SBM College of Engg. and Tech., Dindigul-2, Tamilnadu, India.
