Seminar Report on "Advancements in Cement Technology"

The seminar on "Advancements in Cement Technology" was organized on 25th August 2018 at Seminar Hall 1 of SSMIET. The seminar was coordinated by Mr. A. Arulgnanapragasam & Mr. Saravana Kumar. The seminar aimed to provide a platform for experts, academicians, and industry professionals to share their knowledge and insights into the latest developments in cement technology, its applications, and sustainability in the construction industry. The event began with a warm welcome by Mr. A. Arulgnanapragasam, the coordinator of the seminar. He highlighted the significance of cement technology in modern construction and set the tone for the day's proceedings. The inauguration session featured a chief guest, Er. C. Thiyagu, Member Secretary, Civil Engineers Welfare Association (CEWA), a renowned civil engineer, who emphasized the importance of keeping up with technological advancements in the construction industry for economic and environmental sustainability.

Technical Sessions:

The seminar comprised three technical sessions, each with distinguished speakers, focusing on different aspects of cement technology:

Session 1: Cement Types and Production Techniques

Dr. D. SENTHIL KUMARAN, M.E., Ph.D., (NUS)
Principal
SSM Institute of Engineering and Technology
Kuttiathupatti Village, Sindalagundu (Po),
Palani Road, Dindigul - 624 002.

Session 2: Cement Applications and Innovations

Session 3: Sustainable Practices in Cement Industry

Er. C. Thiyagu, Member Secretary, Civil Engineers Welfare Association (CEWA) acted as the Chief guest of the day and conducted the above sessions.

A panel discussion was conducted after the technical sessions, where the speakers answered questions from the audience, fostering a lively and informative exchange of ideas. Participants had the opportunity to engage in meaningful discussions about the challenges and opportunities in the cement industry. The "Advancements in Cement Technology" seminar at SSMIET provided an excellent platform for the exchange of knowledge and ideas among experts and enthusiasts in the field. The event demonstrated the importance of staying up-to-date with the latest developments in cement technology, not only for the construction industry's progress but also for a sustainable and eco-friendly future. The seminar provided a valuable learning experience for all attendees, leaving them with a better understanding of the advancements in cement technology and its role in shaping the future of construction. The event came to a conclusion with Mr. Saravana Kumar, co-coordinator thanking the gathering.
