Abstract

Dindigul district is one of the fast growing districts with millions of population in Tamilnadu. Due to the implementation of "Smart city" & modernization for their personal need many of the village people were coming to town daily by various vehicles these cause traffic problems. The project is about a traffic route analysis of tramway in Dindigul city. This tramway can be used by all the peoples of Dindigul which runs around the Dindigul city covering all the important places. We have planned to provide tramway covering all the places like bus stand, 6 schools and colleges, St. Joseph hospital, government hospital, market, police station, banks, Temples, Cinema theatres and other commercial areas.
