**Training Report**

In most of the exam, quantitative aptitude test is conducted as a part of the written exam, which is usually the very first round of the selection procedure. Quantitative Aptitude test basically involves mathematical questions. In these questions, speed of the candidate matters more than his/her knowledge and this needs quantitative aptitude tricks. Quantitative Aptitude paper is an essential part of almost all competitive exams. If you are going to appear for any competitive exam or for a job interview, you must start working on your quantitative aptitude skills.

Quantitative aptitude tests your mental alertness. A suitable candidate needs to be mentally alert to the changes happening around him/ her. A person having an aptitude for numbers will invariably have a sharp mind.

A high profile employee/manager or student struggles with challenges every minute. A major part of his/ her work requires him/ her to find solutions to deal with the problems. The person will possess a knack for looking for solutions for the problems. Therefore, quantitative aptitude is tested in various competitive exams.

. Most of the students learnt about the communication verbal concept. That session windup around 4.30 pm.
