### **Tree adaptation and Sapling programme**

The Youth Red Cross (YRC) unit of SSMIET has been rendering yeoman service to the society. A tree adaptation and sapling programme was conducted by the YRC Co-Ordinator, Mrs. S. Hemalatha of SSMIET at Govt. HSS, Muthunaickenpatty, Oddanchatram on 17.09.22. The volunteers of Youth Red Cross (YRC) unit of SSMIET (50 students) participated in this programme. Around 50 saplings were planted and 50 saplings were distributed.

We, volunteers of Youth Red Cross (YRC) unit of SSMIET (50 students + 2 Faculty) have gone from our college bus at 9.30 a.m. and reached Sri Lakshmi Vidyalaya Matric Hr. Sec. School, Thadicombu nearly 10.00 a.m. In the school, we have spent one hour for plantation. After, finishing plantation refreshment has given to the volunteers.

We then discuss the varied adaptations of tree species to changing climate conditions such as seed resistance to environmental stress, improved by an increase in temperature, affinity to specific fungal symbionts, a wide range of tolerance to abiotic environmental conditions in the offspring of populations occurring in continental climate, and germination strategies closely linked to the ecological niche of the species. Finally, we reached the college at 12. 15 p.m
