Webinar on “Breast cancer Awareness program”

Dr. Sathish Srinivasan,MD,DNB

Date:10.10.2020

Session Timings :12.30PM-1.30PM

An online webinar on "Breast Cancer Awareness Program" has been conducted for girl students and faculty members and was presented by a resource person, Dr. Sathish Srinivasan, MD, DNB, consultant radiation oncologist, Apollo Speciality Hospitals, Madurai on 10 October 2020 | 12.30 PM – 1.30 PM.

The Women Empowerment cell and Rotaract club of SSMIET, in association with Apollo hospitals, Madurai, organised an online webinar. Dr. Sathish Srinivasan delivered the lecture regarding breast cancer.

The resource person explained the symptoms of breast cancer. Breast cancer is the most common cancer in Indian urban women. He also explained that the best approach for a patient with breast cancer to take is to resolve that she will do whatever it takes to be successful in her battle against the disease. How can we recognise the early warning signs of breast cancer? A painless lump (mass) in the breast or axilla. Recent thickening of any part of the breast or axilla. Bloody In-drawing of the nipple or skin of the breast.

He also explained that the common breast cancer symptoms include: a lump or swelling in the breast, upper chest or armpit; you might feel the lump but not see it; a change in the skin, such as puckering or dimpling; a change in the colour of the breast – the breast may appear red or inflamed, or even if the nipple changes. For example, it has become pulled in, rash or crusting around the nipple, any unusual liquid (discharge) from the nipple, or changes in the size or shape of the breast.

This one hour online course was very useful and was very informative for the girl students and female faculty members.
