Report on Tree Plantation in Adopted Villages under UBA

The Tree Plantation Program organized by Unnat Bharat Abhiyan (UBA) of SSM Institute of Engineering and Technology (SSMIET), Dindigul, aimed to create awareness on climate change and promote environmental sustainability. On November 25, 2023, the institute successfully planted 100 saplings in the adopted villages of UBA – Kuttathupatti and Puliarajakkapatti as part of their commitment to social responsibility and environmental conservation.

The primary objective of the Tree Plantation Program was to sensitize the local communities to the impacts of climate change and emphasize the role of trees in mitigating these effects. By actively involving the community in planting saplings, the initiative aimed to foster a sense of ownership and responsibility towards the environment.

The program was executed in the adopted villages under the Unnat Bharat Abhiyan, strategically chosen to maximize the impact of the tree plantation initiative in the locality of the Institute thus serving the local community. The selected villages were identified based on their environmental needs and the potential for community engagement.

The Tree Plantation Program commenced with a brief inauguration ceremony at each village, where Faculty Coordinators and 50 student volunteers of UBA-SSMIET along with the local community engaged in the tree planting process. A diverse range of 100 saplings, including native species, were distributed among the villagers. Each participant received a sapling along with information on its proper care and growth. First plantation was done in Kuttathupatti village by 9.45 am followed by plantation in Puliarajakkapatti by 11.10 am. Refreshments were provided to the Faculty and Student volunteers at Puliarajakkapatti. A comprehensive maintenance plan was discussed and shared with the villagers, ensuring the long-term health and growth of the planted saplings. This plan included regular watering schedules, protection from grazing animals, and periodic health check-ups. The events emphasized the importance of sustainable practices, the role of trees in carbon sequestration, and the broader implications of climate change. The active involvement of villagers fostered a sense of ownership and responsibility for the planted saplings, contributing to the long-term success of the initiative. The

program strengthened the bond between SSMIET and the adopted villages under UBA, paving the way for future collaborative initiatives aimed at sustainable development.

By planting 100 saplings and actively involving the local community, the initiative not only contributed to environmental conservation but also promoted awareness and community empowerment. The institute remains committed to its role in fostering sustainable practices and addressing the challenges posed by climate change in the adopted villages.

About UBA

Unnat Bharat Abhiyan is inspired by the vision of transformational change in rural development processes by leveraging knowledge institutions to help build the architecture of an inclusive India. The conceptualization of UBA started with the initiative of a group of dedicated faculty members of IIT Delhi working for long in the area of rural development and appropriate technology. The concept was nurtured through wide consultation with the representatives of a number of technical institutions.

About SSMIET

Sri Shanmugavelvi Mills (SSM) is one of the leading business houses in Textile Industry in Dindigul District for over 30 years. SSM Group's strong desire to offer world-class high-quality Engineering Education has led to the launch of SSMIET at Dindigul from the academic year 2011-2012. Knowledge is provided by teachers, text books and interactive modes with others in the society. Skills could be developed only through perennial practice. SSMIET imbibe those qualities in the younger generation, besides education. As a basic philosophy, all the students would be inculcated with the importance of ethics, values, respect for nature and national pride.

About Conference

The objective of the conference is to demonstrate how rural problems can be treated as research challenges so that mainstream researchers take interest in order to get quality publications while solving socially relevant problems. This in turn will help in the documentation and awareness generation throughout the world not to mention. Satisfying the criteria for career advancement, it is expected that such activities among our younger generation will make them more conscious about the gross level social issues enabling them to bring new technological solutions in the form of appropriate design or entrepreneurship models for the benefit of the rural

masses. In addition, other organizations working in similar directions are also invited to submit papers and participate to evolve sustainable synergy among ourselves.

Call for Papers

Original papers preferably based on the following themes are invited.

Conference Themes

- I. Water and waste Management
1. Water Management
2. Sewage Management
3. Liquid waste management
4. Agriculture Waste management

II. Rural Infrastructure

1. Participatory Technological outreach
2. Communication Technologies
3. Health: Physical and Mental
4. Service-Learning Approaches

III. Rural Energy System

1. Batteries and Energy Storage
2. Application of Sensors
3. Renewable Energy Technologies
4. Bio Energy and Solar Energy

IV. Sanitation

1. Technology for sanitation
2. Wash Strategies and Initiatives
3. Successful Wash Implementation
4. Networking with wash Institute

V. Capacity Building Strategies for convergence & implementation

1. Environment and Sustainable Resource Management, (E&SRM), (WASH)
2. Resource Mapping for Villages
3. Telemedicine

TREE SAPLING CEREMONY

REPORT

A world record event of Tree planting (6 lakh saplings in 6 hours) held on 23.12.2022 (Friday) at Edayakottai in Oddanchatram Taluk of Dindigul District. Tamil Nadu Food and Food Supply Department (Food and Food Supply, Consumer Protection, Price Control) Minister Mr. Inaugurated by R. Chakrapani. Two additional ministers graced the occasion by participating. More than 200 students and 19 faculty members from our college participated in it. Also, A large number of college students, public works department employees, village administrators, social welfare department employees, local municipality department officers and government officials participated in this. Local municipality department officers guided us on how to plant a sapling properly. The trees are important in environmental and ecology concern. Neem, Punga, Vagai, Kodukkapuli, Amla, Arjuna, Vengai and Atthi and various new varieties items were planted. Due to rain and water availability, 90% saplings are getting survival and people are involving in tree planting and rearing work. On that afternoon, lunch was organized for everyone by the government. Our students participated with great enthusiasm.
